

Free Presentation

**Oxford Village Offices
22 W. Burdick
Oxford MI
April 20, 2010
7-8pm**

Attention Lakefront Property Owners

Spring is a great time to think about healthy lawn and garden care. By making small adjustments in our landscaping practices, each of us can make a big difference in the health of our creeks, lakes and rivers.

Join the Clinton River Watershed Council at this workshop & learn:

- Simple steps to help protect water quality
- How to help maintain your detention pond for water quality
- How native plant buffers can be both beautiful additions to your landscape and effective tools for reducing pollutants, soaking up excess rainwater, preventing erosion.
- Practical “how to” process for planning and designing native lake/stream buffers and receive plant lists, sample landscape plans and other related resources.

Registration Required

Please contact the Clinton River Watershed Council at (248) 601-0606 or contact@crwc.org for more information or to register .
