

Watershed Friendly Lawn Care: Facts, Myths and other information

Spring is a great time to think about healthy lawn and garden care. By making small adjustments in our landscaping practices, each of us can make a big difference in the health of our creeks, lakes and rivers.

Learn how to go "green" with your lawn and be the envy of everyone in your neighborhood! We will debunk some lawn care myths and share the latest information from turf experts MSU. Attendees will discover how each of us can make a big difference in the health of our creeks, lakes, drains & rivers by making small changes in our landscaping and home practices.
