

## CONSTRUCTION UPDATE

July 13, 2018

### **CHARLEVOIX RESURFACING NEFF TO FISHER**

This week Florence Cement Company completed excavating and placing stone at the Washington intersection and placing new curb and gutter at the University, Rivard and Washington intersections. They are TV inspecting the new storm sewer under the University, Rivard and Washington intersections today while the new concrete curb and gutter cures. On Monday and Tuesday, they plan on forming and pouring the handicap ramps at these 3 intersections and completing the finish grading. On Wednesday they plan on placing the first lift of asphalt on all 3 of these intersections and then they will be open to traffic. Once these 3 intersections are open to traffic, the contractor will be closing the Lakeland and Lincoln intersections and begin replacing the storm sewers.

The City of Grosse Pointe wishes to apologize for any inconvenience it may cause you and hopes, with your cooperation, to complete the construction in a timely manner.

If you have any questions or concerns, please feel free to contact any of the following:

Contractor: Florence Cement Company, Inc. (586) 997-2666

Engineer: Anderson, Eckstein and Westrick, Inc  
Stephen Pangori [spangori@awinc.com](mailto:spangori@awinc.com) (586) 726-1234

Thank You.
