

CONSTRUCTION UPDATE

July 28, 2017

**2017 WATER MAIN UPGRADE PROJECT
Notre Dame – Alley at Starbucks to 702 Notre Dame**

Due to a delay in being able to test the new water main, the connection will be made starting July 31 instead of this week. The contractor will be connecting the new main to the existing water system at the alley behind Starbucks at 10:00 am, the morning of July 31, 2017. When this connection is made, we are anticipating that the water on Notre Dame will be shut off for a 5 to 6 hour period. The water will be turned back on as soon as it is safe to do so.

During the water main connections, Notre Dame will again be closed to thru traffic at Waterloo and at the alley behind Starbucks. Traffic wishing to access the Kroger parking lot will be directed to the alley off Cadieux as indicated on the attached map. Traffic wishing to access Lot 2 will be directed to the gate on St. Clair. Access to the Kroger Lot driveway on Notre Dame across from the Board of Realtors will be maintained during construction. Access to the alley behind Starbucks will be closed for about 5 to 6 hours while the connection at that location is being made. Deliveries to the stores between Notre Dame and St. Clair and access to the Posterity Skye Salon parking lot during this time should be directed to access the alley from St. Clair.

A similar closure is anticipated during the time that the pavement replacement work is completed. You will receive another notice prior to this occurring.

To assist the Contractor in completing the water main replacement in as little time as possible, the City is asking that you not park your vehicles on either side of the street, or, on your driveway apron between the sidewalk and street between the hours of 7:00 a.m. and 7:00 p.m. once work on your street begins.

During construction, mail delivery, rubbish pick-up and access for Emergency Vehicles will not be interrupted.

The City of Grosse Pointe wishes to apologize in advance of the impending construction for any inconvenience it may cause you and hopes, with your cooperation, to complete the construction in a timely manner. If you have any questions or concerns, please feel free to contact any of the following:

Contractor:	Bricco Excavating Company, LLC	(248) 547-6963
Engineer:	Anderson, Eckstein and Westrick, Inc	
	Charles Myslinski	(586) 726-1234
	Stephen Pangori	(586) 726-1234
