

CONSTRUCTION UPDATE

July 28, 2017

2017 WATER MAIN UPGRADE PROJECT

WASHINGTON ROAD – Mack Avenue to Waterloo Street

This week, the contractor has completed transferring all of the services from homes to the new water main between Mack Ave and Chalfonte and has completed the installation of the new water main from Chalfonte to Waterloo. Next week, they plan on beginning restoration work from Mack to Chalfonte. The replacement of the concrete sidewalks and the driveways on private property will be completed by the water main contractor in this block. The replacement of driveway approaches and the grass restoration will be completed by the resurfacing contractor as a part of the street resurfacing project upcoming for that block. Next week, the contractor will also be testing the new water main between Chalfonte and Waterloo. If testing goes well, we are anticipating that the water will be shut off for about 4 to 6 hour in the block between Chalfonte and Charlevoix on Thursday or Friday so that the new main can be connected to the existing system.

If you are within the construction area and have a sprinkler system along the back of the sidewalk or between the sidewalk and curb, please mark your sprinklers as soon as possible (if you haven't done so already) to aid the Contractor in preventing unnecessary damage to your system. If any portion of your sprinkler system requires temporary removal, it will be re-installed during final site restoration and clean-up of the work site.

To assist the Contractor in completing the water main replacement in as little time as possible, the City is asking that you not park your vehicles on either side of the street, or, on your driveway apron between the sidewalk and street between the hours of 7:00 a.m. and 7:00 p.m. once work on your street begins.

During construction, mail delivery, rubbish pick-up and access for Emergency Vehicles will not be interrupted.

The City of Grosse Pointe wishes to apologize in advance of the impending construction for any inconvenience it may cause you and hopes, with your cooperation, to complete the construction in a timely manner. If you have any questions or concerns, please feel free to contact any of the following:

Contractor:	Bricco Excavating Company, LLC	(248) 547-6963
Engineer:	Anderson, Eckstein and Westrick, Inc	
	Charles Myslinski	(586) 726-1234
	Stephen Pangori	(586) 726-1234

Thank You.
