2019 RESURFACING PROGRAM MAUMEE AVENUE - CADIEUX TO ST. CLAIR AND NEFF TO FISHER LINCOLN ROAD – JEFFERSON TO 400' NORTH OF MAUMEE

The City has contracted with Florence Cement Company, Inc. to resurface Maumee from Cadieux to Fisher except for the City Hall block between St. Clair and Neff. This project will also include the asphalt section of Lincoln from Jefferson to 400' north of Maumee. The construction is funded by the road Improvement Millage. During the week of June 3rd, the contractor will be starting this project. It is anticipated that this project will take about 8 weeks to complete.

The resurfacing project will include repairs to the storm sewer system, the recapping of the existing curbs, removal and replacement of the drive approaches, milling off of the existing asphalt surface, repairs to the existing road base and the placement of a new asphalt wearing surface.

When your drive approach is being replaced you will not have access to your driveway and will have to park your vehicle on the nearest side street. You will be notified in advance of being temporarily without the use of your driveway.

During the base repair and resurfacing work, access to your driveways will be maintained as much as possible, but it may be necessary at times to park on side streets.

To allow the Contractor to perform the pavement repair, no parking will be allowed on Maumee and Lincoln. It is absolutely necessary that vehicles not be parked on the street on either side of Maumee and Lincoln during the construction.

If you are within the construction area and have a sprinkler system along curb on Maumee or Lincoln, please mark your sprinkler heads in this area. This will allow the contractor to attempt to avoid unnecessary damage to your system. If damaged, your system will be repaired during restoration of the project. You will be notified when the

placement of the new asphalt surface is scheduled to take place. When this happens, please turn off your **AUTOMATIC LAWN IRRIGATION SYSTEMS** on the night prior to resurfacing and refrain from cleaning driveways, washing cars, etc.

Additionally, a separate contractor will replace a number of sidewalk ramps on Maumee at the intersections of Neff, Rivard and one corner of Washington starting in mid-June. The sidewalks will have tactile surfaces added to ensure compliance with the ADA.

During construction, mail delivery and rubbish pick-up will not be interrupted.

The City of Grosse Pointe wishes to apologize for any inconvenience it may cause you and hopes, with your cooperation, to complete the construction in a timely manner.

If you have any questions or concerns, please feel free to contact any of the following:

Contractor: Florence Cement Company, Inc. (586) 997-2666

Engineer: Anderson, Eckstein and Westrick, Inc
