

NOTICE TO RESIDENTS

July 27, 2018

NEFF AVENUE RESURFACING MAUMEE TO ST. PAUL

The City has contracted with Florence Cement Company, Inc. to resurface Neff from Maumee to St. Paul this summer. The construction is funded by the road Improvement Millage. Beginning next week, the week of July 30th, the contractor will begin preparations for the resurfacing of Neff from Maumee to St. Paul. It is anticipated that this project will take about 4 weeks to complete.

The resurfacing project will include the complete replacement of the storm sewers near the south end, the recapping of the existing curbs, removal and replacement of the drive approaches, milling off of the existing asphalt surface, repairs to the existing road base and the placement of a new asphalt wearing surface.

When your drive approach is being replaced you will not have access to your driveway and will have to park your vehicle on the nearest side street. You will be notified in advance of being temporarily without the use of your driveway.

During the base repair and resurfacing work, access to your driveways will be maintained as much as possible, but it may be necessary at times to park on side streets.

To allow the Contractor to perform the pavement repair, no parking will be allowed on Neff between Maumee and St. Paul. It is absolutely necessary that vehicles not be parked on the street on either side of Neff between Maumee and St. Paul during the construction.

If you are within the construction area and have a sprinkler system along curb on Neff, please mark your sprinkler heads in this area. This will allow the contractor to attempt to avoid unnecessary damage to your system. If damaged, your system will be repaired during restoration of the project. You will be notified when the placement of the new asphalt surface is scheduled to take place. When this happens, please turn off your

AUTOMATIC LAWN IRRIGATION SYSTEMS on the night prior to resurfacing and refrain from cleaning driveways, washing cars, etc.

During construction, mail delivery and rubbish pick-up will not be interrupted.

The City of Grosse Pointe wishes to apologize for any inconvenience it may cause you and hopes, with your cooperation, to complete the construction in a timely manner.

If you have any questions or concerns, please feel free to contact any of the following:

Contractor: Florence Cement Company, Inc. (586) 997-2666
