

ROAD IMPROVEMENT PROGRAM

CONSTRUCTION UPDATE
JULY 15, 2016

ST. PAUL AVENUE RESURFACING CADIEUX TO FISHER

Pro-Line plans on working this Saturday to complete the pavement base repairs and pavement joint repairs on St. Paul.

Next Tuesday and Wednesday, Pro-Line plans on placing of the first layer of new asphalt. Once the first layer of asphalt is complete, the contractor will begin the curb capping and driveway replacement work which we are anticipating will begin at the end of the week.

Please turn off your **AUTOMATIC LAWN IRRIGATION SYSTEMS** on Monday night and refrain from cleaning driveways, washing cars, etc. until the first layer of asphalt is complete which should be Wednesday evening.

All local cross street intersections will remain open. St. Paul, between the intersections, will be closed to all traffic. This will require residents with driveways on St. Paul to park on one of the local cross streets. Access to Neff Lane will be maintained. There shall be **no parking** on St. Paul Avenue for the remainder of the project to allow the Contractor unobstructed access to the work site.

The City of Grosse Pointe wishes to apologize for any inconvenience the construction may cause you and hopes, with your cooperation, to complete this project in a timely manner. If you have any questions or concerns, please feel free to contact one of the following:
